

**Mở bài:**

- Well, I'm interested in the topic of **[TÊN CHỦ ĐỀ: V<sub>0</sub>/N.]**. There are three main approaches to consider: **[1, 2, AND 3]**
- If I were in this situation, I would definitely choose **[1]** because it seems to be the comprehensive choice.

**Thân bài (Khen):**

- There are two main reasons for my decision.
- First of all, I believe **[1]** is very practical. It allows **[S<sub>2</sub>]** to **[CỤM B.]**.
- Additionally, it is also beneficial in the long run. I say this because it helps **[S<sub>2</sub>] + [CỤM B.]** *(because.../For instance,...)*.
- For these reasons, I agree with this option.

**Thân bài (Chê):**

- On the other hand, I don't think the other two options are suitable.
- Regarding **[2]**, I find it quite inconvenient. The main problem is that it can **[CỤM D.]**
- As for **[3]**, I'm not really keen on it either. In my perspective, it might **[CỤM D.]** *(because.../For instance,...)*.
- These are the reasons why I rule out the other suggestions.

**Kết bài:**

- To sum up, although different people have different views, I firmly believe that **[1]** is the best solution for **[S<sub>2</sub>]**.

**Mở bài:**

- Well, generally speaking, the topic of **[TÊN CHỦ ĐỀ]** is gaining a lot of attention these days.
- Looking at the mind map, we can see that there are several aspects to discuss, namely **[1, 2, AND 3]**. In my opinion, they all play a significant role.

**Thân bài (Ý 1):**

- Let's kick off with **[1]**. It is arguably the most obvious factor in this diagram. I say this because it has a direct **[positive/negative]** impact on **[S<sub>3</sub>]** lives.
- Specially, it makes **[S<sub>2</sub>] + [CỤM B/D]**.

**Thân bài (Ý 2):**

- Moving on to **[2]**, which is another point worth nothing. From my perspective, this factor is extremely **[beneficial/harmful]**.
- To be more specific, if **[S<sub>1</sub>]** focus on this aspect, it will **[CỤM B/D]**.

**Thân bài (Ý 3):**

- Last but not least, let's take a look at **[3]**. We cannot deny the importance of this point. The main reason is that it tends to **[improve/affect] + [S<sub>3</sub>] + [wallet/health/future/...]**.
- For instance, it can **[CỤM B/D]**.

**Kết bài:**

- To sum up, after analyzing all the factors above, I hold the view that **[1, 2, AND 3]** are the most prominent features of this topic. That brings me to the end of my presentation.
